

What we do

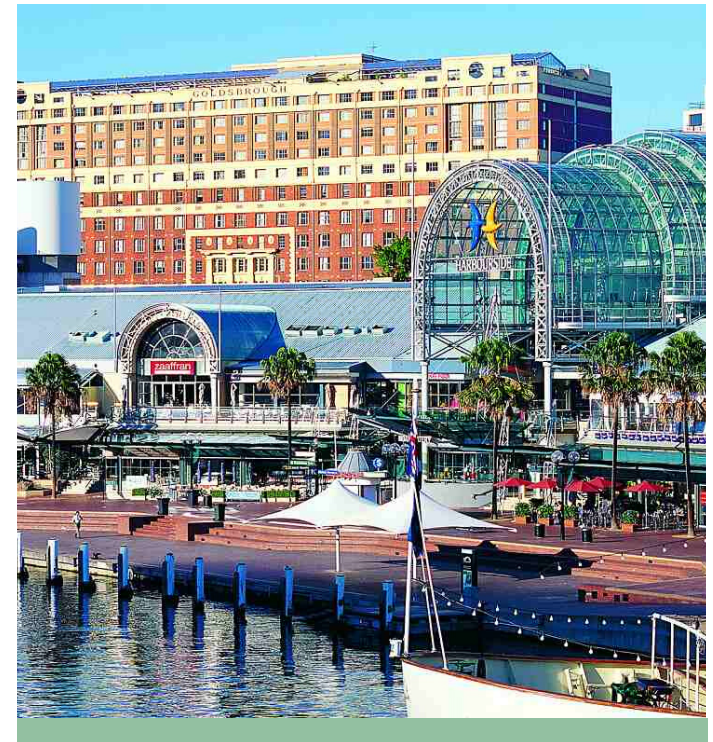

Our short-term respite accommodation plans cater towards the individual and their particular needs with specific care plans designed and organised for a unique experience focusing on what is most beneficial to each participant. Activities like the ones we offer, have been proven to help participants build their independence while enhancing their social and emotional wellbeing. The program will not only offer carers a chance to relax but allow the NDIS participants to have an unforgettable short-term respite experience that will centre around exploration, excitement and fun with the added element of an experienced professional assessing and planning future treatment requirements and needs.

OUR APPROACH

This project was conceived with the guidance of experienced and highly qualified professionals who wanted to offer a unique approach to services, while also satisfying the needs of NDIS participants to the highest standard.

We have dedicated and extremely skilled staff that are passionate about providing a holistic service that would entail the careful creation of personalised support plans that cater specifically to the individual needs of each participant.

HOW IT WORKS

The NDIS participants will be under the care of qualified diligent staff at a 1-to-1 ratio whilst receiving 24-hour care. The duration of respite can go for a minimum of 12 hours to a maximum of 14 days.

We are NDIS registered and all prices are provided through the current NDIS pricing guide and fully covered by the participants' NDIS funding.

OUR FACILITIES

Illoura Retreat has access to great facilities including an indoor heated pool, spa, gym and a sauna in Darling Harbour in the vibrant city of Sydney. We provide comfortable, spacious and secure accommodation for NDIS participants.

”

We are looking forward to the opportunity of providing the support your participants deserve.
